

**AIR-CELL®**

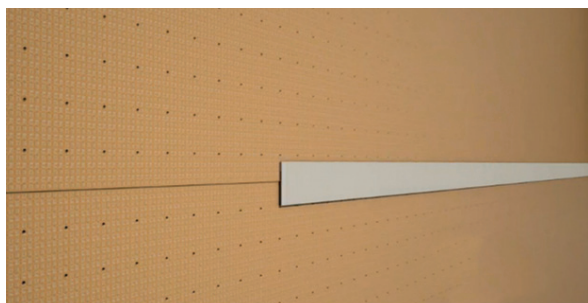

## STEEL-FRAMED WALL INSTALLATION INSTRUCTIONS

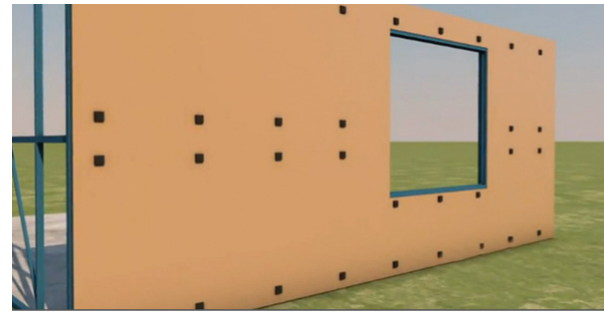

1. Fix **Kingspan AIR-CELL®** loosely to the outside of frame leaving flexibility for **Kingspan AIR-CELL®** to be dished onto the wall cavity.

2. Cut **Kingspan AIR-CELL®** carefully around doors, windows and other openings, so that it neatly abuts to frames.

3. Butt join **Kingspan AIR-CELL®** sheets and tape with a 48 mm wide reinforced foil tape.

4. Provide for outer air space by adhering the **Kingspan AIR-CELL Spacer Biscuits™** to the outer face of the **Kingspan AIR-CELL®** (approximately 3 Spacer Biscuits™ per square metre required).

5. Commence installing cladding in accordance with manufacturer's installation instructions.
